Career d

The Institute for Career & Technical Education is a 501(c)(3) non-profit organization dedicated to developing partnerships between educators and industry.

We support programs that build career and college pathways for students at every grade level.

Advisory Council for Career & Technical Education,
New York Department of Education

A volunteer group of employers, executives, labor unions and community organizations appointed by the Schools Chancellor to advise on curriculum, facilities, teacher training and certification, workforce development and employment trends.

Graphics Industry Advisory Commission

Graphic arts, design, publishing, video, printing and multimedia professionals who work with graphic communications, teachers, principals and students in New York City public schools.

Annual Citywide Graphic Arts Competition

Every Spring, graphics students from all over New York City come together at a college in Brooklyn to test their skills in seven competition categories: Desktop Publishing & Design, Web Development, Digital Photography, Digital Video Production, Student Filmmaking, Powerpoint Presentation and Package Design.

Graphic Communications Scholarship, Award
and Career Advancement Foundation

Industry leaders providing financial support to New York City metro area students pursuing careers in graphic communications.

New York City Area SkillsUSA

The New York City chapter of a national nonprofit organization that builds partnerships of students, teachers and industry working together to ensure

Program Review

Teacher certification, facilities, pathways, effectiveness

Internships

Work-based learning, contacts, prospecting

Competitions

Assessing outcomes, building confidence and camaraderie

Scholarships

Supporting colleges, apprenticeships, certifications and credentials

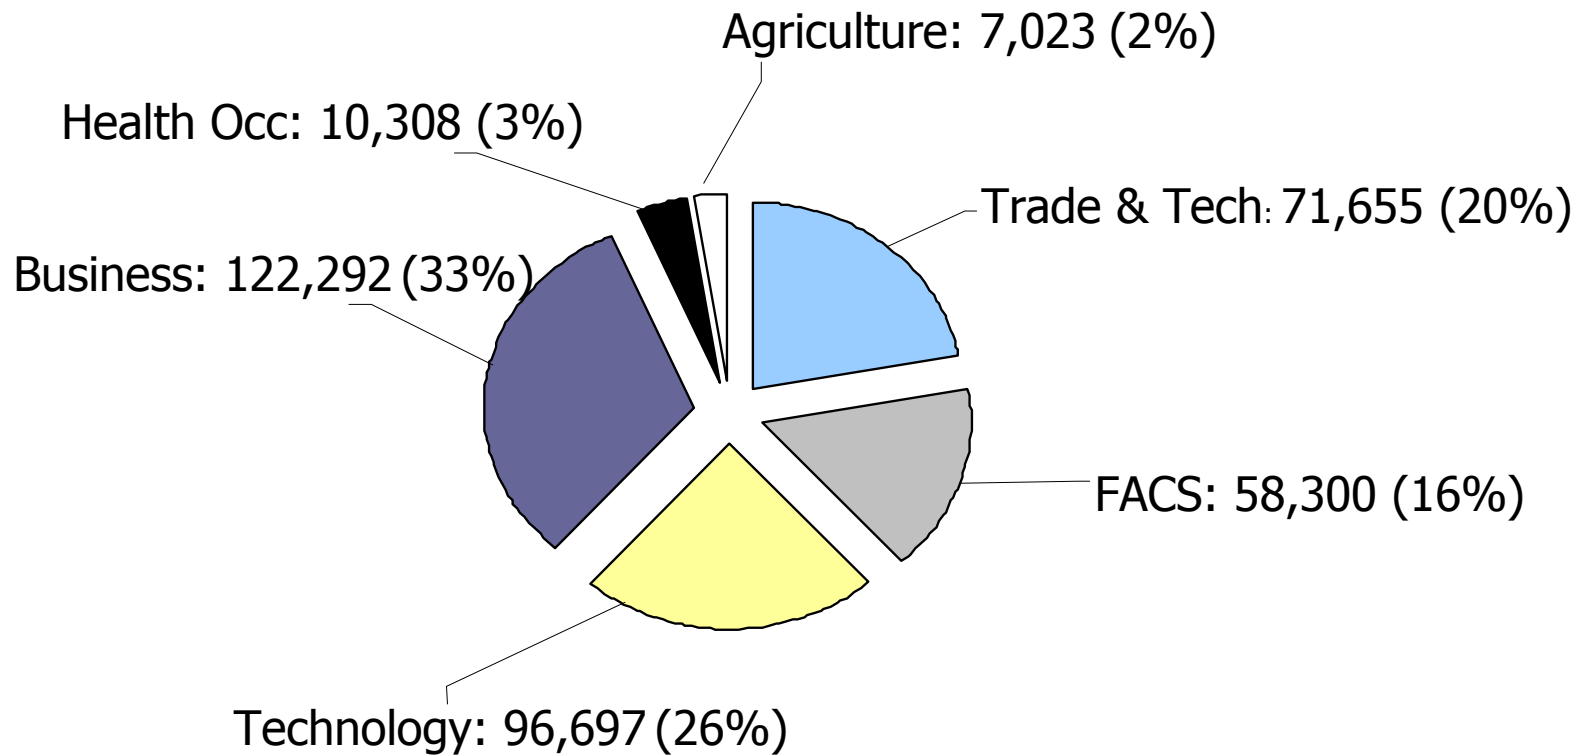

CTEcouncil

NYS Regents CTE Content Panel

..practitioners of K-12 and higher education educators, business leaders, representatives from Big 5, small city, suburban and rural school districts

...to make recommendations for strengthening CTE K-12 learning and to address the gaps seen in the CTE learning continuum statewide.

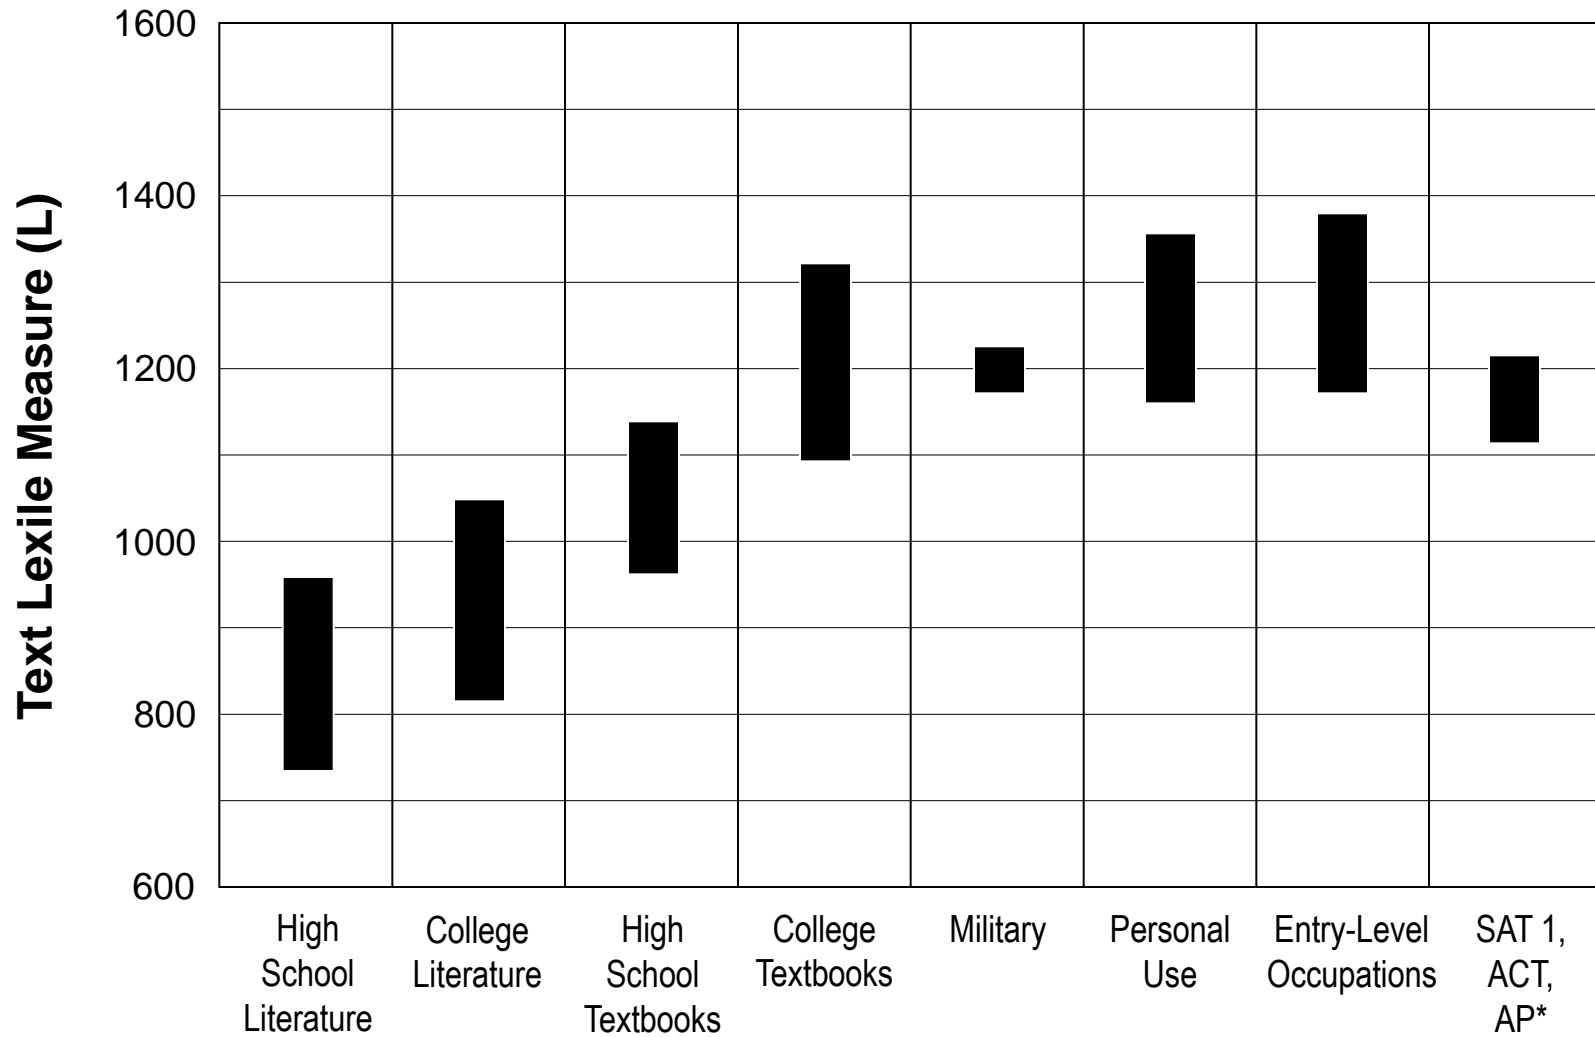

CTE Secondary Students by Enrollment: 2009-10

Source: BEDS Data 2009-10

Reading Study Summary

Interquartile Ranges Shown (25% - 75%)

* Source of National Test Data: MetaMetrics

Students

- Providing diploma flexibility to meet students' career goals. (Alternative exams, more integrated courses and dual options)
- Expansion of dual credit option for career programs
- Providing seamless transitions (middle to high and high to postsecondary) related to career development

Teachers

- Affirming the role of all adults and experience in career decision-making
- Creating career-related questions in core Regents exams to match career pathways
- Encouraging innovative instructional models (through funding, research and dissemination)

School Leaders

- Allowing more flexible options in instructional assignments within certification area
- Establishing measures of career readiness

Community Economic Development

- Statewide career emphasis (commitment of education to economic development)
- Expanding school accountability measures to include school career readiness and career preparation
- Increasing aid for career programs that address high growth job demand.
