

# The NYC CTE Industry Scholars Program

For Industry Partners

---

## The NYC CTE Industry Scholars Program

The CTE Industry Scholars Program supports Career and Technical Education (CTE) high school students in advancing their post-secondary education and career aspirations through valuable work-based learning activities. The program is comprised of industry-specific internships and a variety of career activities aimed at helping CTE students apply their skills in authentic industry settings while gaining real-world work experience.

---

### INTERNSHIP PROGRAM

A competitive paid internship hosted by industry partner organizations.

---

### CAREER EXPLORATION ACTIVITIES

Students benefit from career days, work readiness training, mock interviews, site visits, employer tours, and more. These activities are open to all CTE students.

---

## Strengthen NYC's Future Workforce

The CTE Industry Scholars Program partners with leading industry organizations and provides them with the opportunity to not only help build the future of NYC's workforce, but also gain CTE students' technical skills for their business needs during a six-week long internship. We invite you to join this community of industry leaders in providing NYC's CTE students from across the five boroughs with exposure to work experiences that complement their studies and career goals.

---

## Host an Intern, Gain a Helping Hand

The CTE Industry Scholars Program engages promising students whose rigorous technical education, integrated work experiences, and personal motivation set them apart. Through their CTE studies, students take industry-specific courses, gain recognized skills and certifications, and demonstrate genuine interest, passion, and dedication through their specialization. Throughout the internship program, students will also be provided with ongoing support, including skills and job readiness training, to ensure their success.

---

## Participating Industries

The program connects students with industry partners from the following sectors:

- ↗ Automotive and Transportation
- ↗ Business and Finance
- ↗ Construction and Engineering
- ↗ Culinary
- ↗ Healthcare
- ↗ Hospitality and Tourism
